

ZANDER DUHAYLUNGSOD

COMPUTER SCIENCE STUDENT

ASPIRING SOFTWARE DEVELOPER | WEB DEVELOPMENT | DATA ANALYSIS

Davao City, Philippines | 09854287270 | zanderduhaylungsod@outlook.com | <https://specertorduke.github.io/ojtportfolio>

CAREER OBJECTIVE

Detail-oriented Computer Science student with hands-on experience in web development, database management, software development, and data analysis. Successfully led academic and research projects in web-based systems, assistive technologies, cybersecurity, and simulations. Seeking an OJT/internship opportunity to contribute software development, data analysis, and problem-solving skills while gaining hands-on industry experience.

SKILLS AND QUALIFICATIONS

Technical Skills

- Programming Languages: **Python, PHP, JavaScript, Java, C#**
- Web Development: **HTML, CSS, Laravel**
- Database Technologies: **MySQL**
- Tools & Platforms: **Git, GitHub, Visual Studio Code, Figma, Rockwell Arena**
- Technical Areas: **UI/UX Design, Database Design, Data Analysis, Version Control, Software Testing & Debugging, Cybersecurity, Machine Learning Fundamentals, AI-Assisted Development**

Professional Strengths

- Analytical Problem Solving, Team Collaboration, Project Coordination, Technical Documentation.

CERTIFICATIONS

- | | |
|--|---|
| • Information Technology Specialist in Network Security
Certiport 2026 | • Diploma in Website Development
Alison 2024 |
| • Information Technology Specialist in Databases
Certiport 2025 | • Diploma in Programming using C#
Alison 2024 |
| • Diploma in Machine Learning with Python
Alison 2025 | • Diploma in Python Programming
Alison 2023 |
| • Information Technology Specialist in Java
Certiport 2024 | • Diploma in IT Management
Alison 2023 |

EDUCATIONAL BACKGROUND

Bachelor of Science in Computer Science

University of Mindanao

Aug 2023 - Present

Expected Graduation: 2027

- Relevant Coursework: Web Development, Database Systems, Software Engineering, Systems Analysis and Design, Cybersecurity, Machine Learning, Data Structures and Algorithms, Simulation and Modeling.

RELEVANT EXPERIENCE

PhishVote: Machine Learning-Based Phishing Detection System

Jan 2026 - Mar 2026

Lead Researcher

- Built a phishing detection browser extension utilizing ensemble machine learning models to identify malicious sites.
- Performed data preprocessing and model evaluation using industry-standard machine learning workflows.
- Implemented weighted soft voting to combine model predictions and improve overall detection performance.
- Utilized Python and machine learning libraries including Scikit-learn, XGBoost, CatBoost, Pandas, and NumPy.
- Evaluated performance using Accuracy, Precision, Recall, F1-Score, ROC-AUC, and Precision-Recall metrics.
- Applied machine learning concepts related to classification, ensemble learning, feature engineering, and cybersecurity-focused threat detection.

FurryTails: Web-Based Pet Services Management System

Mar 2025 - May 2026

Full-Stack Developer

- Developed a web-based reservation management system for pet grooming and boarding using the Laravel framework.
- Designed and implemented modules for user, pet, appointment, payment, service, and activity log management.
- Built CRUD functionalities, booking workflows, payment tracking, and role-based access controls.
- Utilized PHP, MySQL, HTML, CSS, and Bootstrap for full-stack web application development.
- Applied software engineering concepts including requirements analysis, database design, and system testing.

Pharmacy Simulation: Shortest Processing Time (SPT) Optimization System

Mar 2026 - May 2026

Lead Data Analyst & Simulation Engineer

- Built a discrete-event simulation model analyzing patient flow data to optimize complex hospital pharmacy outpatient bottlenecks using Rockwell Arena.
- Performed statistical distribution and exploratory data analysis using industry-standard analytics workflows.
- Utilized Python and data analysis libraries including Matplotlib, NumPy, Pandas, and Arena output analyzers.
- Evaluated statistical variance using Wait Time, Value-Added Time, Transfer Time, and Total Time-in-System.
- Applied data analysis concepts related to descriptive statistics, trend visualization, queueing theory, and bottleneck detection.

INSIGHTFUL: Object Detection & Computer Vision Web Application

Oct 2024 - Jun 2026

Web Developer

- Built a browser-based computer vision application for real-time object detection and text recognition.
- Implemented TensorFlow.js and COCO-SSD models to analyze live camera feeds and identify objects.
- Integrated Tesseract.js OCR and color detection features with accessibility-focused voice feedback.
- Utilized HTML, CSS, JavaScript, and browser APIs for responsive web application development.
- Applied computer vision concepts related to object detection, text recognition, color analysis, and accessibility.

SPASWAB: Solar-Powered Arduino-Based Smart Waste Bin

Apr 2023 - Jul 2023

Researcher & Programmer

- Integrated Arduino Uno with capacitive, inductive, and ultrasonic sensors for material detection.
- Implemented C++ control logic to classify plastic, metal, and non-recyclable waste categories.
- Conducted experimental evaluation and statistical analysis to measure segregation accuracy and consistency.
- Applied concepts in embedded systems, sensor integration, renewable energy, and data-driven research.

ACHIEVEMENTS

- | | |
|--|-----------------|
| • Ranked Top 2 in the College of Computing Education Dean’s List (2 nd Year) | Jul 2025 |
| • Ranked Top 1 in the College of Computing Education Dean’s List (1 st Year) | May 2024 |
| • Recognized as Best Capstone Project Presenter (2023) | Jun 2023 |
| • Awarded Best Robotic Prototype (2023) | Jun 2023 |
| • Academic papers consistently recognized by faculty and showcased as exemplary submissions. | |

SCHOLARSHIPS

- | | |
|---|----------------------------|
| • Commission on Higher Education (CHED) FPESFA Full-Merit Scholar | Aug 2024 - Present |
| • University of Mindanao Honor Society Scholar (Category A) | Aug 2024 - Present |
| • Former Educational Benefit System Unit (EBSU) - STEP Scholar (Category A) | Aug 2023 - May 2024 |

SEMINARS/TRAINING ATTENDED

- | | |
|--|----------------------------|
| • Internship Seminars: Office Etiquette, Work Ethics, Gender & Sexual Harassment Awareness, Mental Hygiene (University of Mindanao) | Jun 2026 |
| • Industry Integration: Software Quality Assurance in Modern Practice (University of Mindanao) | Sept 2025 |
| • iSTEAM: Webinar Series on Robotics and Programming I, II (Mintal Comprehensive Senior High School) | Dec 2021 - Jan 2022 |
